 - Tap on **Registration**

Or

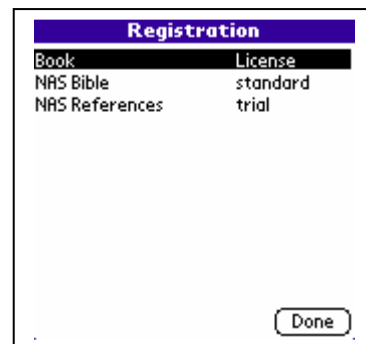

- Draw the *Graffiti Menu Command stroke* ✓ and the letter **R** on the silkscreen

2. Choose a product to register:
 - Tap on the **Trial** active field against the product

The License column indicates current license of a product:

- Standard – indicates a registered product
- Limited – indicates a limited product registration
- N/A – product is not available
- Disable – the product is not active
- Trial – indicates product is not registered

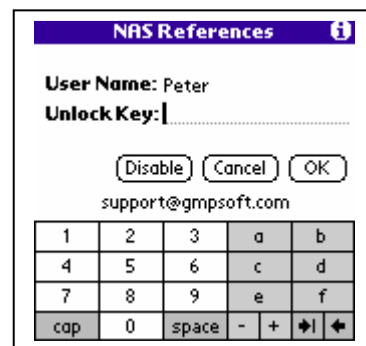

Note: The *Trial reminder* form will be displayed if there is even one product with a Trial License state.

3. Type the *Unlock Key* in the **Unlock Key** field:
 - Tap consequently on the corresponding buttons or use the System Keyboard
4. Confirm
 - Tap on **OK** button.

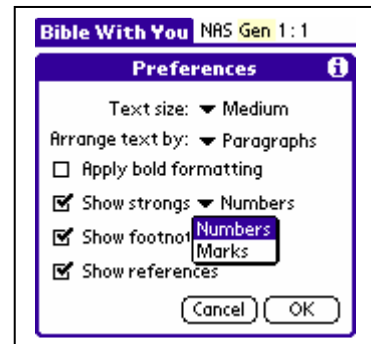

If you do not want to use a particular product, tap on **Disable**.

Note: *Disable* option is available only for Study Aid Products.

4 Preferences

1. Choose **Preferences** from the **Options** menu
 - Tap on **Bible With You** bar or **Menu** button to display the form menu

5 Reading Bible Mode

5.1 Select Bible version

1. Open **Select Bible** form
 - Tap on the *Bible translation field* at the **Menu Bar****Or**
 - Tap on **Bible With You** bar or **Menu** button to display the menu
 - Tap on **Options**
 - Tap on **Bible Book****Or**
 - Draw the *Graffiti Menu Command stroke* ✓ and the letter **B** on the silkscreen

2. Scan for new Bible translations
 - Tap on **Scan**

Bible With You stores cache information about the available databases. This speeds the operation when you use memory cards.

It is not necessary to scan each time. Scan when you:

- Installed new bible(s)
- Deleted bible(s)
- Transferred bible(s) from handheld RAM to the memory card or vice versa
- Moved bible(s) in another folder of the memory card

3. Choose Bible version
 - Tap on the desired Bible version in the options list

Gray status of a version indicates one of the following:

- Bible version is not installed (if you have installed a Bible version after the last scan, scan again)
- Bible is selected as **Complimentary Book** (see section 6.2)
- Versions of the Bible are not synchronized. To download latest versions, please, visit our website:
www.gmpsoft.com

4. Confirm
 - Tap on **Done** button

5.2 Navigate in the Bible

1. Read a chapter

- Use the scroll bar to move the text up and down

The Menu Bar displays the active verse. *Active verse* is the one that is displayed in the menu bar.

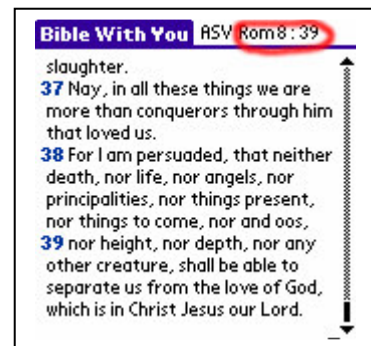

2. Activate a verse

- Tap on the desired verse in the text

The active verse will move at the top of the text area.

3. Move the text up and down by pages

- Use **Page Up/Page Down** buttons of your handheld

5.3 Select a book, chapter and/or verse

Selection order is from a more general to more specific object (for example, when you choose a book, the application will open the **Select Verse** form. Then, when you choose a chapter, the **Select Verse** form will be opened). To exit the selection order, tap on **OK** button.

Important: You can change Bible version, book, chapter and verse by tapping on the respective active field in the **Select Book/Select Chapter/Select Verse** forms.

1. Open the **Select Book/Select Chapter/Select Verse** form

- Tap on the *book abbreviation* or *chapter/verse number* field in the *Menu Bar*.

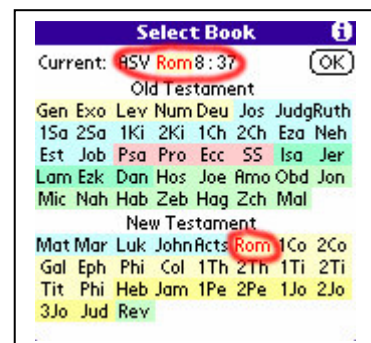

2. Select a book

- Tap on a book abbreviation in the **Select Book** form

Red font indicates current book

3.1 Confirm current selection

- Tap on **OK** button

4. Select a verse

- Tap on the respective number in the list

Red font indicates verse number

4.1 Confirm current selection

- Tap on **OK** button

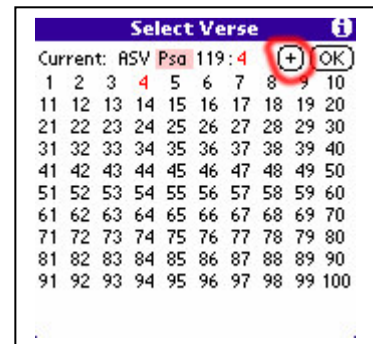

Important: If the number of chapters or verses is more than one hundred they will be displayed in two forms

5. View more chapter or verse numbers

- Tap on '+' button

6. View smaller chapter or verse numbers

- Tap on '-' button

5.4 See verse in another Bible Translation

1. Select another Bible translation

- Follow the instructions described in section 4.1

The verse will be automatically displayed in the other Bible translation.

5.5 Copying Verses

Bible With You allows you to copy a single verse or whole chapter to paste in another applications.

5.5.1 Copy Active Verse

Allow you to copy only the current active verse.

1. Activate a verse

- Tap on the desired verse in the text
